

Form For Math VIMEO

Dear CEDAR Families,

CEDAR is proud to be able to present videos of many of our math courses. These videos are a taped version of the class your student has participated in.

Please know, these videos are only accessible for 6 days after the class has been held.

These videos should only be used by students currently enrolled in these courses who wish to review their lessons in further detail than their notes allow.

The cost of the VIMEO subscription, which will have all the classes taped for the entire term, for each specific course, is \$5 per class meeting, \$160.00 in total. For each course you want a video subscription for, please fill out a new application and a different \$160 check.

Please fill the entire form out, found on the following page. Submit this form accompanied by a \$160.00 check (made out to CEDAR) and hand both form and check to Mrs. Brookins.

Thank you!
